Will **Kanye West** shoot his next video in Montauk? Sources tell us **Hype Williams**, the video's director, showed up in the area with photographer **Michael Dweck's** 2004 book "Montauk: The End" in hand looking for the same locations featured in the book, which features beautiful surfers and models at the beach. On Thursday night, Williams and a crew came to Banzai Burger for lunch and returned for the Montauk eatery's opening party. Recently, Dweck, along with **Bruce Weber**, acted as an unofficial photographer snapping pictures at friend **Dylan Lauren's** wedding. Dweck's new book, "Habana Libre," comes out this fall.
